#### Why Spring Brings Out Freckles and Eruptions

The sudden appearance of freckles, slight eruptions or fine lines at this season is attributed by scientists to the "actinic ray," which is unusually active during the spring months. Where the skin is so affected by this influence, if one will procure an ounce of common merolized wax at any dear. skin is so affected by this influence, if one will procure an ounce of common merolized wax at any drug store, apply a little of it before retiring, like cold cream, she can easily overcome the trouble. When the wax is washed off next morning, flaky skin particles come with it. The entire youter cuticle is removed in this way in a week or two, with all its defects. No bleach could so effectually remove freekles or blemishes. The new surface is smooth, clear, fresh looking. No pain or inconvenience accompanies this simple treatment. No pain or inconvenience accompanies this simple treatment. In case of wrinkles which sink beneath the outer skin, a solution of saxolite, i oz., discolved in ½ pint witch hazel, makes a face bath which is wonderfully effective.—Adv.
